Application for rates and other charges to be effective January 1, 2022

INTRODUCTION AND SUMMARY

The Ontario Energy Board is approving a change in electricity distribution rates charged by Elexicon Energy Inc. as of January 1, 2022.

The OEB issued a Decision and Order on December 16, 2021 with a draft Tariff of Rates and Charges setting out Elexicon Energy's new rates effective January 1, 2022. The Decision and Order required Elexicon Energy to provide the OEB with written comments regarding the draft Tariff, by no later than January 10, 2022.

Elexicon Energy filed a letter with the OEB on January 7, 2022 that contained three comments on the Tariff:

1. On page 7 of the Tariff, there is a reference to Whitby Hydro within the definition of the Street Lighting Service Classification that should be changed to Elexicon Energy Inc.
2. On page 15 of the Tariff, the following two charges appear under the "Non-Payment of Account" heading, but not the "Other" heading:
 - Reconnection at meter – during regular hours \$ 65.00
 - Reconnection at meter – after regular hours \$185.00

Elexicon Energy noted that these charges should appear under both headings because reconnection charges are not solely limited to instances of non-payment and that this is consistent with its past Tariffs.

3. With respect to the Tariff for the Veridian Rate Zone, Elexicon Energy suggests that the wording "Class B" be added to all instances of the Rate Rider for Disposition of Global Adjustment Account (2022) for added clarity that this rate riders applies to only Class B customers.

The OEB has reviewed Elexicon Energy's comments and agrees with the proposed changes. Attached to this Final Rate Order is an updated, final Tariff of Rates and Charges for Elexicon Energy.

THE ONTARIO ENERGY BOARD ORDERS THAT:

1. The Tariff of Rates and Charges set out in Schedule A of this Final Rate Order is effective January 1, 2022 and is to be implemented January 1, 2022. The Tariff of Rates and Charges will apply to electricity consumed or estimated to have been consumed on and after January 1, 2022.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

In general, all services will be metered. However, certain types of electrical loads are not practical to meter, or the cost of metering represents an inordinate expense to both the Customer and Elexicon Energy. Class B consumers are defined in accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.
