

## LINEPERSON (10 positions)

Elexicon Energy is the fourth largest municipally owned electricity distributor in Ontario, providing reliable energy services to more than 170,000 customers. We power life's most meaningful moments, creating harmonious connections between experiences, people and the environments where they dwell. Through our safe and reliable services, we illuminate, move, grow, comfort, nourish, and educate, ultimately shaping stronger communities and a better world. Elexicon Energy was formed when two companies merged in 2019. We are building a vibrant brand and a strong organizational culture based on shared values.

There are ten (10) openings at various locations including Ajax, Belleville, Clarington, Brock, Gravenhurst and Whitby.

This position initially reports to the District Supervisor at the work centre location, and is responsible for the daily activities as follows:

### DUTIES AND RESPONSIBILITIES

- + Understanding and compliance with industry rules, Utility Work Protection Code and all safe work practices as set out by IHSA and company standards and work in conformity thereto with competency.
- + Using approved live line techniques, the lineperson will construct and maintain lines and equipment energized from 120 volts to 44,000 volts on both overhead and underground plant applications.
- + Install, connect, energize, operate and maintain conductor, cable, overhead and underground apparatus including distribution system pad mounted equipment, transformers and switching devices.
- + Be able to safely operate bucket trucks, radial boom derricks, tensioning machines for stringing operations, cable pulling equipment, underground fault locating and cable tracing equipment and all other tools used in overhead and underground line construction and maintenance.
- + Must be capable to operate boats, ATV's, snowmobiles and off-road equipment, if trained to do so.
- + Be familiar with measurement devices and carry out test procedures, as required, testing for potential, measuring current and resistance using appropriate test equipment.
- + Be familiar with and carry out live line work practices and techniques on the distribution systems including Bare Hands Techniques, stick work and rubber glove techniques.
- + Must understand and comply with Ontario Traffic Manual - Field Book 7, IHSA, OHS, Reg. 22/04, Construction Verification Program, Elexicon's Standard Operating Procedures, Construction Standards and other policies and procedures.
- + Respond to trouble calls and public emergencies regarding power outages, unsafe situations, service connections, or provide assistance to co-workers and dispatch as required contributing to expected customer service levels.
- + Be available to perform regular stand-by duty and emergency call outs.
- + Travel to other areas within Elexicon's jurisdiction to help with emergency restoration including overnight trips as required.

- + Other duties as required may be considered part of these responsibilities.

## KEY SKILLS & QUALIFICATIONS

- + Demonstrated overhead/underground maintenance and construction, organization, communication and troubleshooting skills.
- + Understanding of electrical and civil drawings.
- + Sound knowledge of safety rules and safe work practices.

## MINIMUM REQUIREMENTS

The successful candidate will have attained the following:

- + Provincially certified or Red Seal Power Line Technician
- + Completed High School or equivalent
- + Class DZ driver's license and the ability to attain AZ certification

The successful candidate will have or have the capability to attain the following:

- + Chainsaw Operation
- + Propane Certification
- + Lift Truck Certification
- + Utility Work Protection Code Certification
- + CPR/First Aid Certification
- + Boat Operators License
- + Helicopter Safety course
- + Rubber Glove and Live Line Techniques
- + Underground Proficiency
- + IHSA Safety Training and Updates
- + Working knowledge of mobile technology and computer software applications.
